Subject: Re: Meeting next Monday

Bill,

There is one slight change to the agenda as we previously discussed:

Per our discussion, I understand that the agenda would be:

- September gas sampling results, with emphasis on relationship between treatment activities and gas generation/quality
- Potential additional field studies
- Potential additional lab studies
- Regulatory issues related to treatment

Please suggest any necessary additions or modifications to this agenda

Based on on-going discussions with DEQ, the 4th bullet would be dropped for this meeting, and add an agenda item for "RCRA Landfill Construction in comparison to RCRA Minimum Technology Requirements" which our EPA RCRA staff will discuss.

Let me know if you have any questions.

Regards,

Harry

Subject: Meeting next Monday

Harry- We are going to have more people in attendance Monday than I previously communicated. In addition to me, Gene Matsushita, Doug Goins, Brad Owens, and 2 consultants, we will have Steve Winston, LMC employee Brian Thorne, and outside counsel Alan Bick. I hope that doesn't pose a problem for the meeting room.

Regards, Bill
